

## PERSONNEL AIRLOCK SMART-LINE

### Construction:

Folding airlock with self-closing doors; large flaps, which are also viewing windows. Self-closing door elements made of composite panels. The flaps ensure a directed air flow towards the work area.

The roof and floor elements of the shower are made of 2 mm aluminium. The door element is made of a 3 mm thick aluminium composite material, the side walls of the shower are made of hard-foamed, antistatic, washable, 8 mm thick sandwich panels, PVC-coated on both sides.
