

## deco mobil C 6000 Type Civil & Disaster

Incident scene hygiene with toilet and decontamination for people

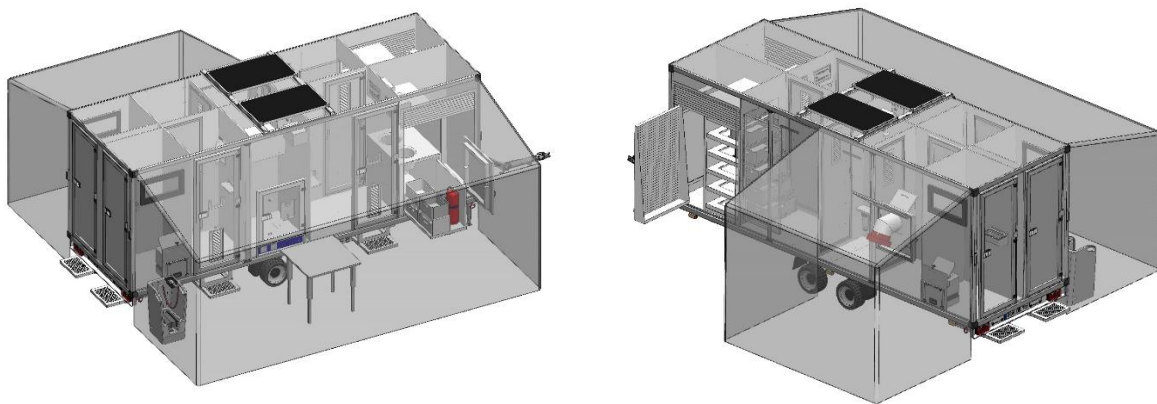

The deco mobil C 6000 – Type Civil & Disaster- incident scene hygiene / decontamination - is designed for self-sufficient use and has two toilets and a multi-chamber system with a shower for decontamination installed. The unit ideally complements a wide range of operational concepts and provides everything needed for extensive on-site hygiene and decontamination at the incident scene.

Everything is available, from a boot washing unit to a changing room with a safekeeping outward transfer for the contaminated protective gear to a shower room and to spare outfits.
